KDT750/900 Price Checker/Kiosk

Getting Started

Getting Started

Getting Started

1 Open Outer Case

2) Rotate Up Slightly

3) Slide Off Tabs

Connections to the KDT unit are housed internally to prevent vandalism and to secure devices.

2 Internal Connections

3 Power Requirements

The KDT750/900 can utilize three power sources: external DC power supply, Power-over-Ethernet, and an optional internal backup battery.

External DC Power Supply

WARNING: Using power supplies that are not supplied by AML for use with the KDT900 unit can cause damage to the unit and will void all warranties.

Internal Power-over-Ethernet Supply

The KDT750/900 contains an 802.3af compatible power supply. The unit can be powered via category 5 networking cable when used with an 802.3af compatible power injector. Both network traffic and power can be sent via the same category 5 wire.
